

## Behaviour Support and Safety Planning Policy in the Context of a Home Environment: Practice Implications

This session is an opportunity for Home-Share Providers (both Direct and Agency Coordinated), and those utilizing Individualized Funding or a Person-Centered Society (Micro-Board) to come together to learn, discuss, and network. The content of the session will focus on CLBC's policy on Behaviour Support and Safety Planning, in the context of a home-based setting. We recognize that there are several areas specific to home environments that may warrant a deeper understanding of the policy and its implications to practice. Using real case examples from a home-based setting, participants will be encouraged to reflect share with one another gaps between policy and practice.

### About the facilitator: **Becky Roth, DSW, ABS, MPEd.**

Becky has been a Behaviour Consultant for Laurel Behaviour Support Services since August 2015, and a Clinical Supervisor since December 2017. Becky holds a Masters of Professional Education with a focus in Applied Behaviour Analysis and has over five years' experience as a front line staff in multiple residential homes for adults with intellectual disabilities, worked as a behaviour interventionist for children and adolescents, and provided behaviour consultation for children and adolescents. Becky is passionate about working with support teams serving adults with intellectual disabilities, and is always on the lookout for opportunities to share and exchange knowledge within the community. Currently, Becky works primarily with adults who have intellectual disabilities and delivers the Behaviour Lead Practicum and Capacity Building sessions in the North and South Okanagan regions.
