Co-Sponsored by:

The NTG is pleased to bring together a national panel of expert researchers and practitioners in the field of Down syndrome and Alzheimer's disease who will engage in a realistic and thoughtful discussion of both current and future therapeutics, matters related to diagnostics, and the emerging research on biomarkers.

This webinar will be useful to parents and families, providers, advocates, clinicians, practitioners, and others invested in the future for persons with Down syndrome.

The webinar will be recorded and a link to recording will be sent to all registered participants.
